

It's a Jungle out there!

Welcome back to a different but exciting start to the New Year!

Our topic this term will involve us discovering all about South America, Brazil and the Amazon Rainforest.

During the course of our topic, we will use maps to explore South America and the different climate and biomes of the world. We will then focus in on Brazil and compare it to the UK before finally identifying where the Amazon rainforest is situated and the climate and weather of this biome.

We will discover the diverse fauna and flora that thrives in this habitat, learn about Amazon tribes and the impact of deforestation.

Some of these areas will be covered as part of our English learning through our reading and writing including:

- Setting Descriptions
- Non-chronological reports
- Persuasive texts

We hope you are finding Seesaw easy to use, we know the children love using it in school. However if you have any problems then do not hesitate to contact us through the school email.

Each morning the lessons will be uploaded at 9am, please look out for the welcome instruction video for the day. This will outline the timetable for the day and any key messages for the children.

Please can we ask you to remind your children when uploading photos of work to make sure they are clear and are taken directly above their work where possible so we can see it clearly to provide feedback.

Get those hearts racing!

Please don't forget to keep active during this time at home. We are very lucky to have Inspire+ who will be providing daily live sessions on their website and YouTube each day aimed at both KS1 and KS2 pupils from 1-1:30 and 4-4:30.

R.E and Christian Values

In R.E we will be linking our Science topic of Evolution and exploring beliefs around science and the 'Big Bang.' We will be comparing this to the creation story and exploring whether the two ideas are compatible or not.

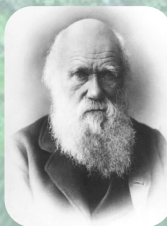

Our Christian values this term are Perseverance, Courage, Compassion and Forgiveness.

Survival of the fittest!

In Science will be covering the following:

- Adaptation, evolution and inheritance
- Charles Darwin
- Classification of the animal kingdom
- Fossils

Dive Into Maths!

This term will be focussing on decimals, percentages, algebra, measurement and shape.

Please remember we are always here to help. Should you have any worries or concerns then do not hesitate to contact us.

The Year 6 Team
