Abbey Road   **Tel: 422163**
Bourne

7th November 2022

Dear Parents and Carers,

TAPESTRY

Tapestry is now fully up and running in Reception and it has been lovely to share pictures and snippets of your child's day at school through this secure portal. It has also been fantastic to see the learning from home that has been shared through Tapestry as the children are always so proud to show their friends the pictures or videos that parents and carers have sent in - thank you for your contributions!

If do not yet have access to Tapestry, please speak to your child's class teacher as soon as possible. Please note that if your child attended Abbey Ark, you will use the same email address and password as last year. If you have forgotten your details, please speak to your child's class teacher.
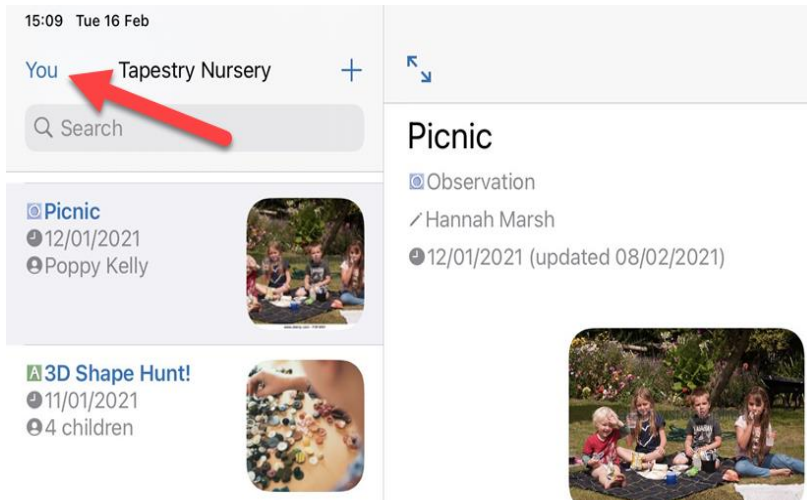

If you would like to receive push notifications on your device to alert you when we upload a new observation for your child, please follow the instructions on the next page.
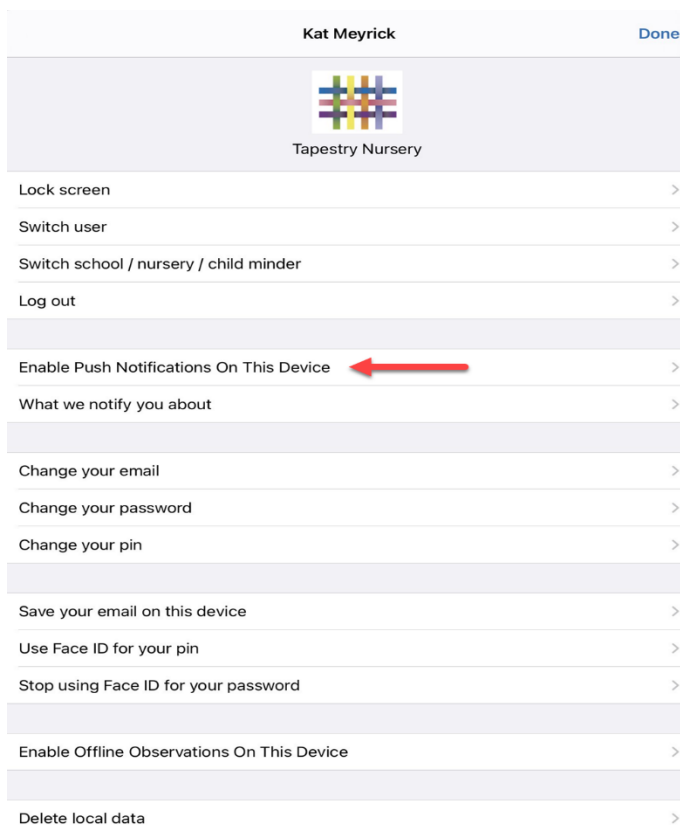

Best wishes,

Miss Thompson, Miss Campbell and Mrs Disdale

1. Login to the app from the device you want to enable notifications for. Once logged in, you will need to click where it says 'You' in the top left-hand corner.

2. On the next screen, you'll need to select the option 'Enable Push Notifications On This Device'.

3. Here you just need to slide the toggle for 'Permission from You' (1) across so it shows as green. You will also need to ensure the app has permission from the device settings to receive notifications, below we can see this is already set (2) but if it's not you just need to slide the toggle and this will take you to your device settings where you can change this. Your final option (3) is to choose whether you'd like notifications to include names in them.

Push Notifications Enabled On This Device

Push notifications require permission from Tapestry Nursery, you and iOS.

TAPESTRY NURSERY PERMISSION

Permission from Tapestry Nursery

Managers at Tapestry Nursery can change this in the 'User Permissions' section of the 'Control Panel' in the web version of Tapestry.

YOUR PERMISSION FOR THIS DEVICE

Permission from You

We advise you not to allow push notifications if you share this device with other users.

PERMISSION FROM IOS

iOS Allows Notifications

This can be changed in the 'Notifications' section of the Settings App.

INCLUDE NAMES IN NOTIFICATIONS

Permission from Tapestry Nursery

Permission from You

Push notifications must be sent via Apple, which may mean the data leaves the EU. For that reason the school and you need to agree before we will include names in push notifications, otherwise the notification will say something generic like "1 Tapestry Notification". Managers at Tapestry Nursery can change the school permission in the 'User Permissions' section of the 'Control Panel' in the web version of Tapestry.

4. This is what it will look like when you receive a push notification.
