Dear Parent/Carer,

MATHS ONLINE WORKSHOP

We're excited to share a valuable resource to support your child's maths learning at home! Our Maths Team across Abbey Academies Trust has collaborated to create an online video. This video highlights key features on our website, as well as the tools and platforms we partner with to enhance maths learning from home.

In this video, we will highlight the various resources, tools, and interactive features our website offers to supplement your child's maths education.

To access this valuable resource, please visit the following YouTube link:

<https://www.youtube.com/watch?v=TSjmpL7ALkQ>

An example of the resources available, which will be discussed further in the workshop, is the 'Maths with Michael' suite of videos. The videos are available on the White Rose Maths website; <https://whiteroseeducation.com/parent-pupil-resources/maths/maths-with-michael>. We encourage you to explore these videos with your child as they will reinforce what they are learning in school and give you an opportunity to discuss maths concepts together.

Additionally, the website provides extra workbook resources that you can download to further reinforce your child's understanding. You can find them on this link;

<https://whiteroseeducation.com/parent-pupil-resources/maths/free-downloads>

We understand the importance of a supportive home environment for your child's academic success, and this initiative is part of our commitment to provide accessible resources that complement our in-school curriculum.

Should you have any questions about the resources, please do not hesitate to contact your child's class teacher.

Your sincerely

The Maths Team
