3rd March 2025

Dear Parent/Carer

YEAR 2 COOKING - TERM 4

As part of our Design and Technology (DT) learning this term, we will be preparing, cooking and tasting a range of different foods.

Next week, the children will be making their own pizzas and practising a range of skills including mixing, kneading, cutting and baking. Alongside this, we will be learning about healthy and varied diets as well as understanding where our food comes from. We will use this delicious task to help us to write a set of instructions in our English lessons.

We will be using the following ingredients to make the pizza base:

- Self-raising flour
- Natural yogurt
- Olive oil
- Cooking salt
- Passata
- Mozzarella cheese

The children will also have a range of toppings to choose from including meat and vegetable options (such as ham, peppers, mushrooms etc.)

Later in the term, the children will then be making some gingerbread. They will get the opportunity to decorate their gingerbread with icing sugar, just in time for Easter!

We will be using the following ingredients to make the gingerbread:

- Plain flour
- Bicarbonate of soda
- Ground ginger
- Unsalted butter
- Eggs
- Golden syrup
- Muscovado sugar
- Icing for decoration

We are very excited about our DT units to come! Please do make sure we have up to date allergy information if appropriate for your child. Any children with specific dietary requirements or allergies will be considered and an alternative will be provided. Please speak to your child's class teacher if you have any questions or want to discuss this further.

Yours sincerely,

Miss Schaffer
Year Two Leader
