E-Safety Newsletter December 2025

Welcome to our December newsletter all about E-Safety. This Christmas, some children may be lucky enough to receive a mobile phone, games console or other device that has the potential to connect to the internet. We know you will join us in wanting to keep them safe. Below is some information and guidance to help keep your child protected this Christmas.

Parental controls help manage content, screen time, privacy and communication. Follow the steps below to set your child up for online safety.

- Explore the device controls and settings to set limits on inappropriate content, screen time, spending and more.
- Download and install the apps and games you're okay with your child using.
- Set up controls in these apps and games to help keep your child safe while they play, browse or chat.
- Install or set up additional parental control apps for further protection.
- Ask them to teach you about their favourite online platforms to create an open environment for conversation.

Scan the QR codes below, using the camera on any device, to access guides about parental and privacy controls.
