

Coding is the act of writing instructions for a computer to make the computer perform a task. Coding may also be called **programming**. A finished set of computer instructions is called a **program**.

Every app, game and software program we use requires a coded program to work. Many of our household appliances and even our cars also require a coded program to work.

Websites:

[www.blocklygames](http://www.blocklygames.com). Complete puzzle and maze sections only

www.tynker.com you don't need to set up an account – stick to beginner level and stick to grades K-2 Normally has subscription but currently free.

Apps: (search in your app store)

Coding safari (apple devices only)

Beebot

Code-a-pillar

Code karts (limited levels on free access)
