

# Home is where **THE HEART IS**

We hope you are having fun spending time learning at home! We want to challenge you to a new palette of choice with a difference, learning new home/life skills. Complete as many of these tasks as you can and evidence them in as imaginative way as you can! This could be photos, drawings, journaling, paintings, pic collages! Above all, be courageous, show resilience and have fun!

## Ready Steady Cook!

Using some spare ingredients from your kitchen, can you spoil your family by cooking them a meal as a treat? Try to be creative with the ingredients you can find. Remember to ask for an adult to help with any hot or sharp equipment!

## Let's get Crafty!

Using any junk or recycled materials you have at home, can you create a multi media picture or model of Beegu's space ship? As her ship was smashed to smithereens, she needs a new one to fly back home in!

## Green Fingers!

Whatever the weather, try to get outside and help in the garden. Can you learn how to do some weeding, plant some spring bulbs, rake up some leaves or gather up the cut grass? Try to help to make your garden beautiful and enjoy some fresh air.

## Acts of Kindness

How can you help at home? Can you become the best at Hoovering? Is your bedroom the tidiest room in the house? Or are you a dab hand at washing the car? Whatever you do to help keep the house tidy, let us know with some photos or a set of instructions.

## Discover the Digestive System!

As part of your school learning you would have been finding out how the human digestive system works. Have fun carrying out the experiment attached and complete the labelling activity and dominoes game.

## Groovy Geography

Think about where you live? Is it in a town, a village or a hamlet? Can you find a contrasting location on another continent and produce a fact file about that place. E.g If you live in the town of Bourne, can you find out about the city of Barcelona in Spain or a village in India?
